

I think that the weather station and the traffic reports along with National news at anytime on the XM Satellite Radio is very beneficial. I do not think that someone should say that we can't have these channels on our XM Satellite Radio that we pay a monthly fee to listen to whenever we want. You should take a stand on the language and questionable scenes on television, or the lyrics of some of the songs that are on the radio today. Thank you for letting me voice my opinion.

Sincerely,

Mrs. Joy Grace
